Unit 3 / Lesson 2 / Assignment 3

Build Your Header: Challenge

Take 1 hour to try building the top header section. Don't peek at code in the finished version of the project!

If you get stuck, first try seeking out help in the student community or by digging into popular online forums like StackOverflow and CSS Tricks. Communicating problems with others is an essential skill for developers.

You may get frustrated, but stick with it for the full hour -- solving problems you encounter will help you internalize your new coding skills. Once the hour is up, then head to the next assignment where you will find a step by step tutorial. Good luck!

Hint: Use unsplash.com to find an image.
