Unit 3 / Lesson 2 / Assignment 9

Build Your Footer: Challenge

Finally, try building the footer section.

Remember: If you get stuck, first try seeking out help from your colleagues via the student community or by digging into popular online forums like StackOverflow and CSS Tricks.

Stick with it for the full hour-- Once the hour is up, then jump right back into the lessons where you'll find a step by step tutorial. Good luck!

> Hint: You must create an unordered list to correctly position the links to Github, Twitter, and Google+. The `` tag creates the list and each item in the list needs an `` tag.
